Advanced Technical Analysis: Strategies for the Savvy Trader
Explore how price structure, trends and key levels can frame a technical market view.

1. Market Structure

- Swing highs and swing lows; higher highs, higher lows, lower highs and lower lows.
- Trend, range and transition phases.
- Break of structure and change-of-character concepts.

2. Support, Resistance and Zones

- Major and minor price zones.
- Role reversal and confluence areas.
- Avoiding false precision when drawing levels.

3. Trend Analysis

- Trendlines, channels and slope.
- Pullbacks, retracements and continuation structure.
- Recognising weakening momentum and possible regime changes.

4. Multi-Timeframe Analysis

- Top-down analysis from higher to lower timeframes.
- Aligning context, setup and execution charts.
- Building scenarios rather than assuming one outcome.
